

## CP Overpass Bridge, East Perimeter

Ernst Hansch Construction (Hansch) was awarded the Manitoba Infrastructure contract to construct a three-span precast prestressed concrete box girder bridge over the Canadian Pacific rail line on the east perimeter, over PTH 101. The contract included all labour and equipment to

erect the bridge with the supply of materials provided by the Manitoba Department of Highways and Transportation. The project schedule included coordination between Hansch and Canadian Pacific to work around their train schedule.

<b>Client</b>	Canadian Pacific Railway Company
<b>Location</b>	PTH 101 , Winnipeg, Manitoba
