

Cadorath Group

Ernst Hansch Construction completed the design and construction of a new 16,400 sq. ft. office/warehouse building located at 2150 Logan Avenue for Cadorath Plating Co. Ltd. / Uniflyte Co. Ltd. Over the past 30 years, Ernst Hansch Construction Ltd. has built five additions to the original building, increasing the size of the building to almost 60,000 sq. ft.

Ernst Hansch Construction also completed the design build of the current Cadorath Aerospace head office building located at 2070 Logan Avenue in Winnipeg, formerly home to Atomic Transport / TCT Logistics.

The Cadorath Group serves the aviation, agriculture, industrial, mining, and oil and gas sectors by manufacturing and repairing component parts through a diverse roster of processes: engineering, robotics, welding, CNC machining, flighting, plating, coatings and more.

The combination of using unique approaches to special processing and manufacturing challenges and the commitment to quality and reliability has transformed the Cadorath Group from a one man shop to a thriving, growing competitive force that straddles two nations and serves a global customer base.
