

Hillcrest Memorial Gardens, Saskatoon

Having successfully completed the Glen Lawn Funeral Home in Winnipeg, Ernst Hansch Construction was approached by Arbor Memorial Services to build a similar facility in Saskatoon.

Hansch provided design-build services for a new turnkey facility just as the last project. The Hillcrest Memorial Gardens & Funeral Home project included the construction of

a new, single storey, wood framed 13,200 square foot building and associated civil work including paving and landscaping. The combination Reception Centre and Administration Office building was built on a pile foundation and structural concrete slab to provide a highly durable building.

Client	Arbor Memorial Services
Location	210 Wess Road, Saskatoon, Saskatchewan
